Steve Jobs
The people who are doing the work are the
ing force behind the Macintosh. It's all in the
work for them, so clear and the rest of the company
and keep it all day. I can't spend enough time with
them, because I have other responsibilities. But
every year I have to have Steve Jobs because this is
the best that there is in the world.

This is the entire group of people I've ever
worked with. They're all exceptionally bright, but
most importantly they're all people who are
there for a long time. It's not the money that's
important. It's more important that they're all
there for a long time.

"The keyboard that started it all..."
Original 1984 Macintosh Keyboard (M0110)

"Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma — which is living with the results of other people's thinking. Don't let the noise of other's opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary."

"Here's to the crazy ones, the misfits, the rebels, the troublemakers, the round pegs in the square holes... the ones who see things differently — they're not fond of rules... You can quote them, disagree with them, glorify or vilify them, but the only thing you can't do is ignore them because they change things... Because the ones who are crazy enough to think that they can change the world, are the ones who do."
